EXPLORERS CLUB

Welcome to our club - we are so pleased you're here!

Every episode, Tracy and Phileas go on a Learning Quest and need a helper - your little one. Each quest is a set of playful activities built with the Early Years curriculum in mind, so while it feels like an adventure to them, real learning is happening at every step. Your child helps Phileas explore, solve and discover, all while having fun.

Look out for the Foxes on each activity page: it is a guide on how to make every task just right for your explorer's age:

🦊 2–3 🦊🦊 3–4 🦊🦊🦊 4–5.

Print your Quest or use it on screen, whichever suits you best. When it's finished, colour a stamp on your Explorer Chart!

THE TRACY & PHILEAS SHOW

Welcome Quest

ADVERNTURE JOURNEY

Tracy and Phileas are going on an adventure! They are packing their hot air balloon and want to go discover the world. They will need your help along the way so they can come back home safely. Join us, explorers!

Tracy and I are going to take a trip in our hot air balloon! Will you be my explorer today? We cannot do it without you!

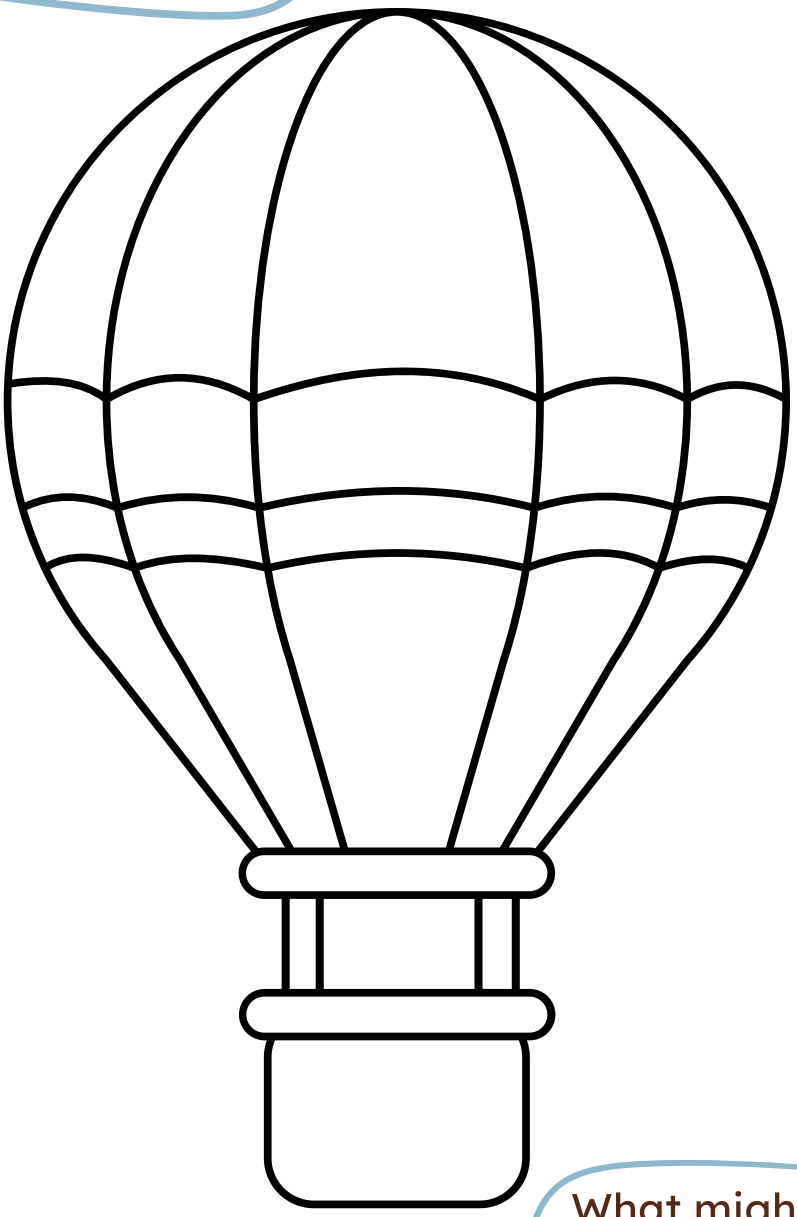

"Take your time, little explorer. Every task you finish is a big help. Ready? Let's go!"

🦊 Colour anywhere, and name a colour along the way
🦊🦊 Try colouring inside the lines, using different colours
🦊🦊🦊 Colour, and draw some elements we can see in the sky

COLOURING

Before we set off, we need to make our hot air balloon really bright so we don't get lost in the sky! Can you help us do that?

What might we see in the sky? Can you tell us and try to draw it?

- Name each item and talk about their use
- Have your child pack their own bag with these items
- What else can they take on an adventure and why?

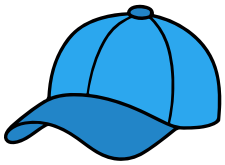

It's time to get packing! I am not sure what to take with me - can you help? Go find these items and pack your own bag at home ready to go!

IMAGINATIVE PLAY

- Count the clouds and the birds together
- First count the clouds and then the birds
- Count both and write the number down

COUNTING

We can barely see anything! How many clouds can you count? And seagulls?

🦊 Describe to your child what is in the picture
🦊🦊 Ask them to name as many things as possible
🦊🦊🦊 Ask your child to imagine what happens once Tracy and Phileas find their nursery

Ah the sun is finally out! What a beautiful view! We can see everything from up here!

WHAT CAN YOU SEE?

What can you see, little explorer? Can you help us find our nursery school?

Bonus learning extension

Talk about a recent trip or a day out that you had, and recall what you saw and did there. What was your favourite part?

- Write your child's name on the dotted line
- Let your child have a go at writing their name
- Write the name and cut out the badge for them to wear

Thank you for helping us today, little explorer! Here is your badge!

WRITING

THE TRACY & PHILEAS SHOW

EXPLORER

. . . . . .

We did it, explorer! And this is your special badge for helping us on our adventure. Well done, and join us next time!

We hope you enjoyed this quest! Come back soon to help Phileas on his next adventure!
